23 February 2021

Location: Online via black board collaborate:
<https://eu.bbcollab.com/guest/3ca2e0dec45242c2922be4340f708585>

Date: 23 February 2021

Time: 10:00 – 11:00

Speakers: José Ángel García Laborda and María del Mar Gómez Zamora.

CINTEC (<https://www.urjc.es/i-d-i/cinttec>) is the promotion and transfer unit of URJC. CINTEC helps URJC research staff in technology transfer matters. Its services include:

- ✓ Promoting knowledge transfer processes to the productive sectors and to society in general.
- ✓ Promoting the transfer of research results of carried out at Rey Juan Carlos University.
- ✓ Facilitating the use of the scientific-technological capacities of its research groups to innovative companies and other entities interested in collaborating on projects of common interest.
- ✓ Capturing, administrative management and justification of contracts art. 83 LOU and chairs.
- ✓ Patent management
- ✓ Advice on issues related to intellectual and industrial property
- ✓ Creation of EBTs
- ✓ Promotion of university-business cooperation programs
- ✓ Training on intellectual and industrial property
- ✓ Advice on the negotiation, preparation and administrative processing of contracts, agreements and other agreements related to research and innovation activities between the University and the private sector.
- ✓ Promotion, support and advice to researchers in entrepreneurship and raising funds for innovation and transfer of results

➔ As part of the technology transfer mechanism under Got Energy Talent MSCA-Cofund, during this workshop, José Ángel García Laborda and María del Mar Gómez Zamora will present CINTEC support to GE fellows and instruct them in preparing a technological offer.

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under the Marie Skłodowska-Curie grant agreement No 754382.
